

TruSpec5

Our 72 bright #5 offers a pleasing, easy-on-the-eye shade that's perfect for many publications. Process color radiates, and images are nice and sharp. It's reliable on the press too, offering consistent trouble-free performance every step of the way.

Three great choices, ONE reliable, trustworthy BRAND.

TruSpec medium and heavy groundwood papers are manufactured for use in magazines, catalogs, direct mail, commercial printing, and custom publishing projects. Whether you choose our TruSpec4, TruSpec4.5, or TruSpec5 grade, you'll find that our southern fiber sheet offers extraordinary strength and durability. So you'll get reliable offset web performance and a resilient end product that'll stand up to rigorous use. Crisp, clean TruSpec offers three levels of brightness and two finishes—gloss and low glare—so you can achieve just the right balance of visual appeal and readability.
